EVOLUTION FORMULA 1.75LEVOLUTION105.68\$FORMULA 3.6L212,06\$

Evolution Formula Enhances Color Please be advised that when opting for the Evolution Formula, your Concrete Coating tone will experience an enhancement compared to the Standard version that use water. The final result will exhibit a shade that is one tone darker.

Upgrade to the Evolutions Formula today and immerse yourself in the latest advancements from Concrete Art Coating, simplifying your project and delivering exceptional, long-lasting results.

While we highly recommend the Evolution formula, especially for Countertop, Shower, and Floor applications, rest assured that the standard version remains a great quality product! For outdoor applications, ONLY the Evolutions Formula is recommended.

Introducing Concrete Art Coating's Acrylic-Based Latex Primer – The Ultimate Bond Enhancer!

Surface Suitability: Designed for all surfaces including walls, countertops, furniture, showers, floors, fireplaces, cabinets, ceramic, porcelain, MDF, laminate, fiber cement, wood, and more.For optimal results, the Concrete Art Coating Primer is essential before applying the Concrete Coating, especially when using the Standard Version. However, with the Evolution Formula, you can skip this step unless applying over Concrete Leveler, where Primer application remains necessary.

STEP 2 MICROCEMENT

MICROCEMENT 1.5KG *45.99*\$

MICROCEMENT 3KG 70,77\$

Introducing our Concrete Art Coating Microcement, a genuine concrete marvel designed to transform any surface into a canvas of endless possibilities. Elevate your spaces with dream-worthy accent walls, showers, floors, countertops, furniture, fireplaces, and beyond. Crafted for ease of application, this pure micro cement is set to redefine your interior and exterior aesthetics. Real concrete application in 2 thin layers (1 mm each coat). Available in 23 pre-set/stock colors. Custom color is also available with extra lead time and a fee for sample approval. Contact our sales representative. The Concrete Art Coating 3KG or 1.5KG must be completely mixed to certify the color. Partial mixing may result in different color variation and will not be certified. Unleash the potential of Concrete Art Coating and redefine your spaces with the raw beauty of authentic concrete. Transform, create, and let your imagination run wild!

Unlock the true potential of your surfaces with Concrete Art Coating Standard Sealer, a water-based marvel meticulously crafted for porous surfaces. This essential sealer not only enriches colors but also preserves the natural aesthetics of surfaces while acting as a robust shield against water and oil. Concrete Art Coating Standard Sealer serves as the initial step in the sealing process before applying Varnish .Concrete Art Coating Im pregnator Sealer serves as the initial step in the sealing process before applying Varnish & Urethane . Embrace the transformative power of Concrete Art Coating Standard Sealer, turning your surfaces into timeless masterpieces.

Elevate the beauty and durability of your Concrete Art Coating projects with our Water-Based Varnishes. Specially formulated to safeguard your surfaces while enriching their colors and maintaining their innate charm, this varnish serves as the final touch to your artistic endeavors.

Concrete Art Coating Water-Based Varnish ensures the longevity and vibrancy of your coated surfaces. With meticulous application and adherence to guidelines, your projects will be both visually striking and well-protected. Elevate your creative spaces with the finishing touch of our premium Water-Based Varnishes.
